

99.9% HEAT REFLECTIVE

IDEAL CHOICE FOR SUPPLY CHAIN

THERMAL PALLET COVER

Your products stay at the temperature you want - letting you ship them further or store them longer with extended shelf life and optimum product freshness.

KEY FEATURES

- ✓ Total Reflectivity and Insulation
- ✓ Easy Installation and Removal
- ✓ Light Weight yet Strong & Durable
- ✓ Total Surround Protection

SUN-FOIL Pallet Cover provides excellent thermal insulation, perfect for palletized cargo.

SHIPPING & LOGISTIC SOLUTION

Using thermal pallet cover helps to protect your shipments and keep them as safe as possible throughout multiple transit, regardless of exterior temperatures.

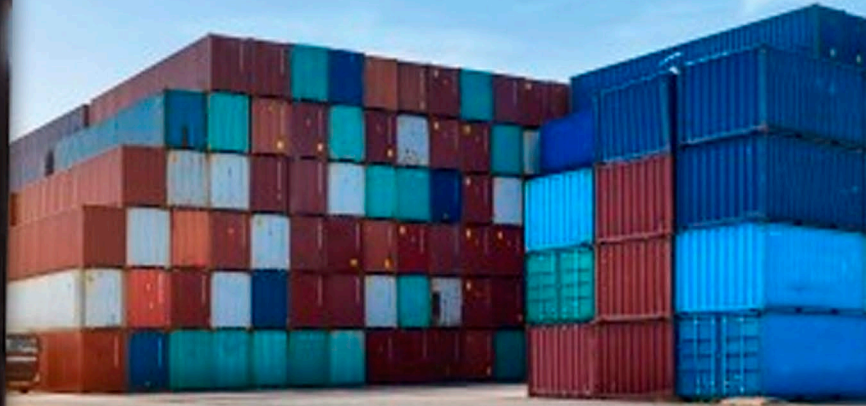

Widely used in pharmaceutical, food and chemical industries for protection of raw materials and liquids that have to be kept between certain temperature limits.
